My last bulletin gave forecasts of  
the storm wave to cross the continent  
from March 12th to 16th, and the next  
will reach the Pacific coast about the  
17th, cross the western mountains by  
close of the 18th, the great central  
valleys from 19th to 21st, and the eastern  
states about the 23d.

This storm will be of wide extent, a  
dangerous storm especially in and east  
of the Mississippi valley.

The warm wave will cross the western  
mountains about the 17th, the  
great central valleys about the 19th  
and the eastern states about the 21st.  
The cool wave will cross the western  
mountains about the 20th, the great  
central valleys about the 22d and the
